Hello!

Doesn't time pass by quickly these days? Already it's almost March as I type this! But we have been surprisingly busy. Thanks to those that cleared-out some older titles on the previous list. On that point, note that many older titles are now one-offs or deleted last copies. This time there's no shortage of new items, with titles from French labels Monster Melodies (1970s oddities) and Bam Balam (lots of Richard Pinhas titles), restocks of Øresund Space Collective, new titles from Norske Albumklassikere, various other new releases, and many more new and second-hand items, lots of which you'll be hard-pushed to find somewhere else!

Audion 77 will be out by the time you read this (both as download and a 100 copy printed edition), plus recent download only issues of Audion 60 and 61 are available in printed form, with Audion 62 due as a printed edition in early April. See advert bottom-right on this page for more info.

cheers - Alan & Steve.
